

## Revised Cost Proposals | How to review and Resubmit

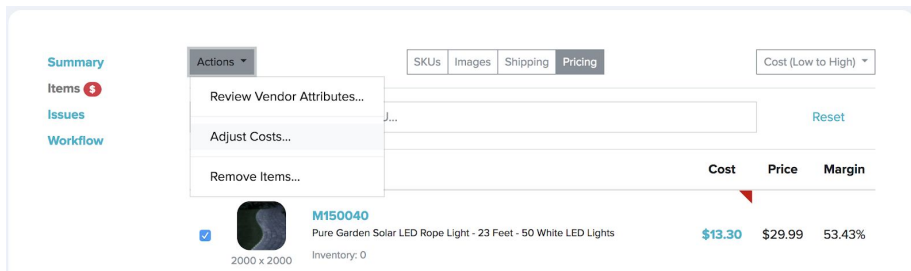

Once the Retailer has received and reviewed your proposal(s), they may change the product cost of what they will be paying for that item.

You can review the revisions by clicking on **Revised** within your Proposal Summary page. If a revision was submitted due to cost change, you will notice a dollar sign \$ next to items on the left-hand side of your screen. Here is where can view all price changes under the **Cost** column.
